- > Gap Analysis

LOGISTICS OPERATIONS

- > Supply Chain Lifecycle Mgmt
- > Material Storage
- > Warehousing
- > Distribution
- > Planning

OPERATIONAL EXCELLENCE. HUMAN-CENTERED DELIVERY. MISSION-ALIGNED OUTCOMES.

PAST PERFORMANCE

U.S. ARMY - DEERS / RAPID SUBCONTRACTOR

The Army needed uninterrupted identity credentialing across 9 sites in 8 states with zero lapses in PII protection or DMDC compliance. **RoDa delivered sustained continuity throughout: a model that transfers to any DMDC-governed DoD mission.**

DSCA — TIME MANAGEMENT TRAINING PRIME CONTRACTOR

300+ employees needed a time management solution built for federal process, not generic commercial training. **RoDa performed with 98% participant satisfaction, plus a follow-on request for leadership coaching.**

FEMA - HURRICANE IAN / PUERTO RICO SUBCONTRACTOR

Emergency generator deliveries needed tight synchronization across transportation, fuel, and field teams amid constantly shifting field conditions. **RoDa sustained one of the Prime's largest disaster responses, restoring power to affected communities on time.**

OUR LEADERSHIP

ROSLYN DAVIS, PMP, DASM

President & Chief Executive Officer

A retired Air Force Chief Master Sergeant and former civil service employee, Roslyn Davis leads RoDa's strategic direction and daily operations. She holds a Master of Science in National Resource Strategy from the National Defense University's Eisenhower School and a 4.0 Summa Cum Laude Master's in Entrepreneurial Management, and has been a certified Project Management Professional since 2008 — remaining an active PMI member and instructor for the National Veteran Institute for Procurement.

WHO WE ARE

RoDa Business Solutions is a **mission enablement partner** that removes both mission risk and contracting risk. PMP-led, Lean Six Sigma and SAFe-certified delivery is backed by a certification stack — 8(a), SDVOSB, EDWOSB, and HUBZone — and a DCAA-compliant, CAS-approved accounting system that make RoDa one of the lowest-friction small businesses a contracting officer or prime can put on contract.

SEASONED LEADERSHIP

Roslyn Davis, a retired Air Force Chief Master Sergeant and PMP since 2008; backed by 70+ years of combined leadership experience and a Veteran-Owned Emerging Business of the Year.

CONTRACT READY

DCAA-compliant accounting, CAS-approved, and ISO 9001 certified: an audit-ready back office that's rare at RoDa's size, and one less risk for a CO or prime to underwrite.

DELIVERY EXCELLENCE

Real missions, measurably improved: from disaster response logistics to federal training. RoDa doesn't just staff the mission, it moves the needle on it.

PRIMED TO WIN

8(a), SDVOSB, EDWOSB & HUBZone certified; a SeaPort NxG prime position eligible for directed 8(a) awards and teaming across every major set-aside lane.

WHO WE SERVE

RoDa lies at the intersection of proven mission success and audit-ready access, with a proven track record of delivering operational support and workforce management for critical missions.

OUR ACCESS

RoDa is converting its certification stack and SeaPort NxG seat into task orders, directed 8(a) awards, and signed teaming agreements, deepening delivery at Navy, Army, DSCA, and FEMA, and building prime capacity through a newly approved mentor-protégé joint venture.
